AMENDED IN ASSEMBLY APRIL 27, 2010

AMENDED IN ASSEMBLY APRIL 12, 2010

CALIFORNIA LEGISLATURE—2009—10 REGULAR SESSION

ASSEMBLY BILL

No. 2758

Introduced by Assembly Member Bradford

February 19, 2010

An act to amend the heading of Article 5 (commencing with Section 8281) of Chapter 7 of Division 4 of, and to amend Sections 8281, 8283, 8284, and 8286 of, the Public Utilities Code, relating to public utilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 2758, as amended, Bradford. Public Utilities Commission: regulated corporations: procurement.

(1) Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including electrical, gas, water, and telephone corporations. Existing law directs the commission to require every electrical, gas, water, and telephone corporation with annual gross revenues exceeding \$25,000,000, and their regulated subsidiaries and affiliates, to implement a program developed by the commission to encourage, recruit, and utilize minority-, women-, and disabled veteran-owned business enterprises, as defined, in the procurement of contracts from those corporations or from their regulated subsidiaries and affiliates, and to require the reporting of certain

information. The commission, by rulemaking, adopted General Order 156, applicable to certain electrical, gas, and telephone corporations, to effectuate these requirements. *The commission is required to report to the Legislature on the implementation of these requirements.*

This bill would ~~also require the corporations subject to these requirements to provide information to the~~ commission *to include in this report information* about which procurements are made with women, minority, and disabled veteran business enterprises with at least a majority of the enterprise's workforce in California, *to the extent that information is readily accessible.*

(2) Existing law requires the commission to recommend a program and legislation for carrying out the policy of aiding the interests of women, minority, and disabled veteran business enterprises in order to preserve specified objectives.

This bill would require the commission, in regard to disabled veteran business enterprises, to ensure that those recommended programs and legislation are consistent with the disabled veteran business enterprise certification eligibility requirements imposed by the Department of General Services and that the recommendations include only those disabled veteran business enterprises certified by the Department of General Services.

(3) Existing law requires the commission, by rule or order, to adopt criteria for verifying and determining eligibility of women, minority, and disabled veteran business enterprises for procurement contracts.

This bill would require the commission to adopt the Department of General Services' disabled veteran business enterprise certification eligibility requirements for verifying and determining eligibility of disabled veteran business enterprises for procurement contracts and would prohibit the commission from deeming eligible those disabled veteran business enterprises that are not certified by the Department of General Services.

(4) Under existing law, a violation of any provision of the Public Utilities Act or any rules or orders of the commission is a crime. In addition, any person or corporation who falsely represents a business as a woman, minority, or disabled veteran business enterprise for the purposes of the programs discussed above is subject to criminal penalties.

Because a violation of the requirements of the bill would be a crime under those provisions, this bill would impose a state-mandated local program.

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that no reimbursement is required by this act for a specified reason.

Vote: majority. Appropriation: no. Fiscal committee: yes.

State-mandated local program: yes.

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 5 (commencing with Section 8281) of Chapter 7 of Division 4 of the Public Utilities Code is amended to read:

Article 5. Women, Minority, and Disabled Veteran Business Enterprises

SEC. 2. Section 8281 of the Public Utilities Code is amended to read:

8281. (a) The Legislature hereby finds and declares that the essence of the American economic system of private enterprise is free, open, and transparent competition. Only through free, open, and transparent competition can free markets, reasonable and just prices, free entry into business, and opportunities for the expression and growth of personal initiative and individual judgment be assured. The preservation and expansion of that competition is basic to the economic well-being of this state and that well-being cannot be realized unless the actual and potential capacity of women, minority, and disabled veteran business enterprises is encouraged and developed. Therefore, it is the declared policy of the state to aid the interests of women, minority, and disabled veteran business enterprises in order to preserve reasonable and just prices and a free competitive enterprise, to ensure that a fair proportion of the total purchases and contracts or subcontracts for commodities, supplies, technology, property, and services for regulated public utilities, including, but not limited to, renewable energy, wireless telecommunications, broadband, smart grid, and rail projects, are awarded to women, minority, and disabled veteran business enterprises, and to maintain and strengthen the overall economy of the state.

1 (b) (1) The Legislature finds all of the following:

2 (A) The opportunity for full participation in our free enterprise
3 system by women, minority, and disabled veteran business
4 enterprises is essential if this state is to attain social and economic
5 equality for those businesses and improve the functioning of the
6 state economy.

7 (B) Public agencies and some regulated utilities which have
8 established short- and long-range women, minority, and disabled
9 veteran business enterprise goals are awarding 30 percent or more
10 of their contracts to these business enterprises.

11 (C) Women, minority, and disabled veteran business enterprises
12 have traditionally received less than a proportionate share of
13 regulated public utility procurement contracts, especially in
14 renewable energy, wireless telecommunications, broadband, smart
15 grid, and rail projects.

16 (D) It is in the state's interest to expeditiously improve the
17 economically disadvantaged position of women, minority, and
18 disabled veteran business enterprises.

19 (E) The position of these businesses can be substantially
20 improved by providing long-range substantial goals for
21 procurement by regulated public utilities of technology, equipment,
22 supplies, services, materials, and construction work, especially in
23 renewable energy, wireless telecommunications, broadband, smart
24 grid, and rail projects, from women, minority, and disabled veteran
25 businesses.

26 (F) That procurement also benefits the regulated public utilities
27 and consumers of the state by encouraging the expansion of the
28 number of suppliers for procurements, thereby encouraging
29 competition among the suppliers and promoting economic
30 efficiency in the process.

31 (G) That the long-term economic viability of this state depends
32 substantially upon the ability of renewable energy, wireless
33 telecommunications, broadband, smart grid, and rail projects to
34 incorporate women, minority, and disabled veteran businesses into
35 those projects.

36 (2) It is the purpose of this article to do all of the following:

37 (A) Encourage greater economic opportunity for women,
38 minority, and disabled veteran business enterprises.

39 (B) Promote competition among regulated public utility
40 suppliers in order to enhance economic efficiency in the

1 procurement of electrical, gas, water, and telephone corporation
2 contracts and contracts of their commission-regulated subsidiaries
3 and affiliates.

4 (C) Clarify and expand the program for the procurement by
5 regulated public utilities of technology, equipment, supplies,
6 services, materials, and construction work from women, minority,
7 and disabled veteran business enterprises.

8 SEC. 3. Section 8283 of the Public Utilities Code is amended
9 to read:

10 8283. (a) The commission shall require each electrical, gas,
11 water, and telephone corporation with gross annual revenues
12 exceeding twenty-five million dollars (\$25,000,000) and their
13 commission-regulated subsidiaries and affiliates, to submit
14 annually, a detailed and verifiable plan for increasing procurement
15 from women, minority, and disabled veteran business enterprises
16 in all categories, including, but not limited to, renewable energy,
17 wireless telecommunications, broadband, smart grid, and rail
18 projects.

19 (b) These annual plans shall include short- and long-term goals
20 and timetables, but not quotas, and shall include methods for
21 encouraging both prime contractors and grantees to engage women,
22 minority, and disabled veteran business enterprises in subcontracts
23 in all categories which provide subcontracting opportunities,
24 including, but not limited to, renewable energy, wireless
25 telecommunications, broadband, smart grid, and rail projects.

26 (c) The commission shall establish guidelines for all electrical,
27 gas, water, and telephone corporations with gross annual revenues
28 exceeding twenty-five million dollars (\$25,000,000) and their
29 commission-regulated subsidiaries and affiliates, to be utilized in
30 establishing programs pursuant to this article.

31 (d) Every electrical, gas, water, and telephone corporation with
32 gross annual revenues exceeding twenty-five million dollars
33 (\$25,000,000) shall furnish an annual report to the commission
34 regarding the implementation of programs established pursuant to
35 this article in a form that the commission shall require, and at the
36 time that the commission shall annually designate.—These
37 corporations shall also provide information to the commission
38 about which procurements are made with women, minority, and
39 disabled veteran business enterprises with at least a majority of
40 the enterprise's workforce in California.

(e) (1) The commission shall provide a report to the Legislature on September 1 of each year, on the progress of activities undertaken by each electrical, gas, water, and telephone corporation with gross annual revenues exceeding twenty-five million dollars (\$25,000,000) pursuant to this article in the implementation of women, minority, and disabled veterans business enterprise development programs. The report shall include information about which procurements are made with women, minority, and disabled veteran business enterprises with at least a majority of the enterprise's workforce in California, *to the extent that information is readily accessible*. The commission shall recommend a program for carrying out the policy declared in this article, together with recommendations for legislation that it deems necessary or desirable to further that policy.

(2) In regard to disabled veteran business enterprises, the commission shall ensure that the programs and legislation recommended pursuant to paragraph (1) are consistent with the disabled veteran business enterprise certification eligibility requirements imposed by the Department of General Services and that the recommendations include only those disabled veteran business enterprises certified by the Department of General Services.

(f) The Legislature declares that each electrical, gas, water, and telephone corporation that is not required to submit a plan pursuant to subdivision (a) is encouraged to voluntarily adopt a plan for increasing women, minority, and disabled veteran business enterprise procurement in all categories.

SEC. 4. Section 8284 of the Public Utilities Code is amended to read:

8284. (a) (1) The commission shall, by rule or order, adopt criteria for verifying and determining the eligibility of women and minority business enterprises for procurement contracts.

(2) The commission shall adopt the Department of General Services' disabled veteran business enterprise certification eligibility requirements for verifying and determining the eligibility of disabled veteran business enterprises for procurement contracts, and shall not deem eligible those disabled veteran business enterprises that are not certified by the Department of General Services.

(b) The commission shall develop, and require every electrical, gas, water, and telephone corporation with gross annual revenues exceeding twenty-five million dollars (\$25,000,000) and their commission-regulated subsidiaries and affiliates to implement, an outreach program to inform and recruit women, minority, and disabled veteran business enterprises to apply for procurement contracts under this article.

SEC. 5. Section 8286 of the Public Utilities Code is amended to read:

8286. (a) In order to facilitate the participation of women-owned businesses, minority-owned businesses, disabled veteran-owned businesses, and small businesses in contract procurement, any corporation subject to this article may consider the following measures to include those businesses in all phases of their contracting:

~~(a)~~

(1) Timely or progressive payments to those businesses.

~~(b)~~

(2) An amendment of the performance bond requirements so that bond requirements of electrical, gas, and telephone corporations do not prohibitively burden those businesses from procuring the corporation's business.

~~(c)~~

(3) The provision of assistance to those businesses by securing contract payments to those businesses with letters of credit, negotiable securities, or other financing arrangements or measures.

(b) This section does not restrict a corporation's ability to require a bond.

SEC. 6. No reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution because the only costs that may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction, within the meaning of Section 17556 of the Government Code, or changes the definition of a crime within the meaning of Section 6 of Article XIII B of the California Constitution.
